

Learning to Look it Up!

Due: Tuesday Lecture, Week 2

Name:

Student ID:

This worksheet is designed to get you into the mindset of an independent creator, maker and cartographic researcher, navigating questions you might have in the course. You are, of course, allowed to Google the answers.

Do you know how to (or have you already) get access to:

- ☐ the CAGE Lab
- ☐ Adobe Creative Suite
- ☐ The C183 bCourse site
- ☐ The C183 Lab Gitbook?
- ☐ The Learning Agreement

You need to find an example map for inspiration.
List places you might look?

-
-
-
-
-

You'd like to find a map of the depths of the San Francisco Bay. What are some keywords you could use?

-
-
-
-
-

Find 5 different online cartographic archives

-
-
-
-
-

Find three blog posts by cartographers which show how to use a particular technique to make maps. Name the cartographer and the type of map below.

-
-
-

You are making a print map of Australia, and want to color the continent green in Illustrator. Find five how-to guides which might work as a way to do so.

-
-
-
-
-

You are making a web map and want to round the corners of the map. You have the code, have triple checked it and it's just not working. List five platforms where you could ask for help?

-
-
-
-
-

Pick a map by Dan Coe, and explain the steps you would take to figure out how it was made?
